

# Setting up your Square Terminal

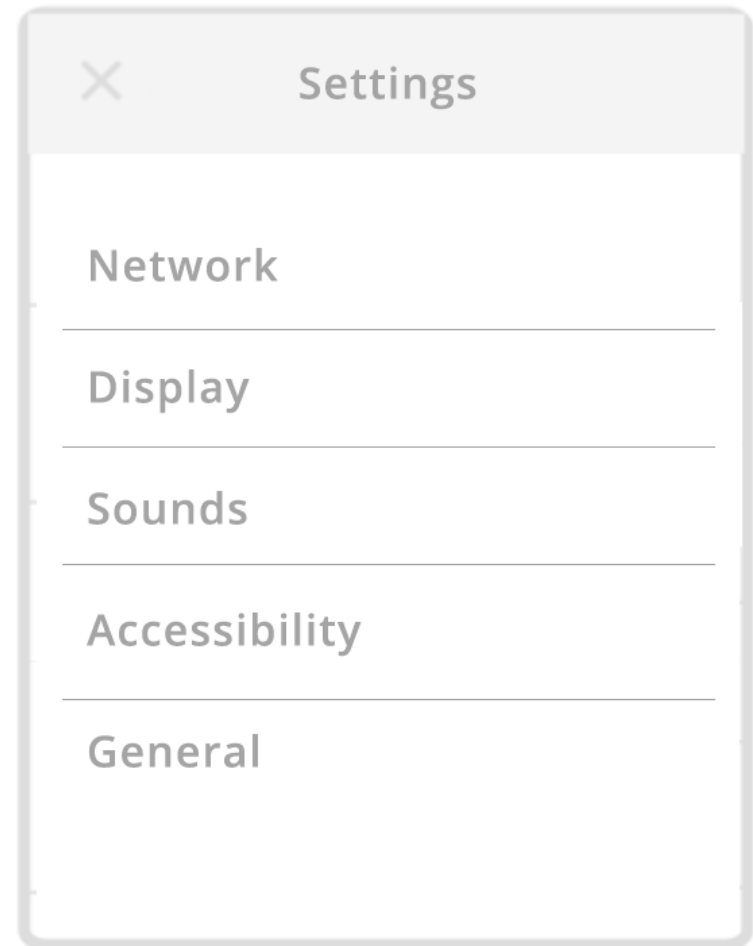

- 1 Turn on your Square Terminal. If you are already logged into Square Terminal, you must first sign out. To do this, swipe from left to right on the screen, select Account, and then select Sign out.

**2** Tap on change settings.

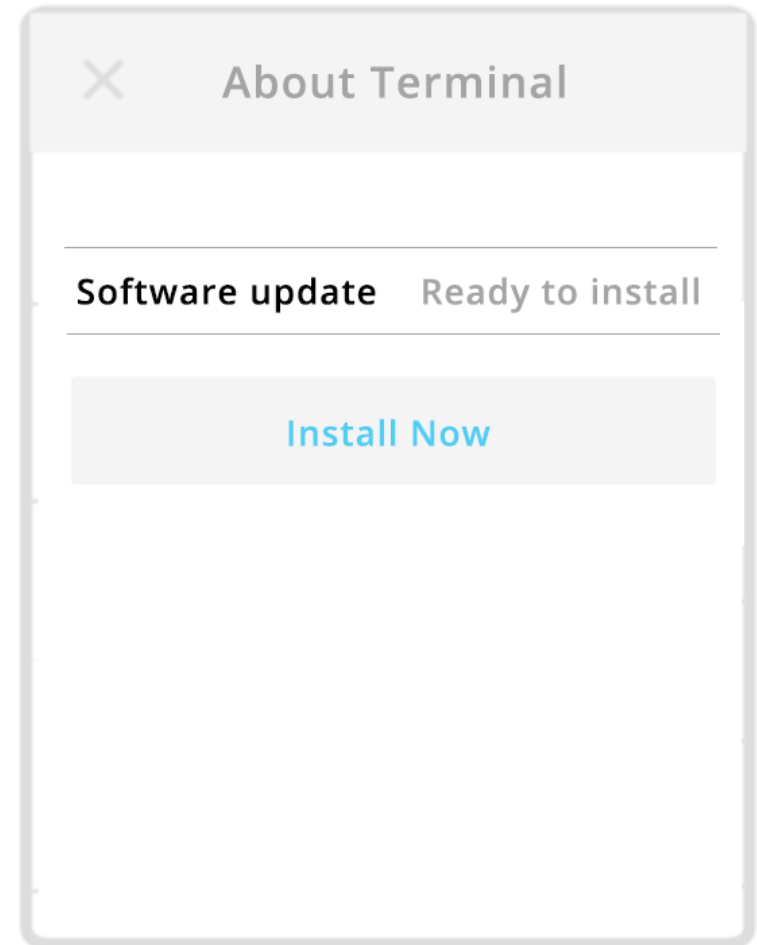

# 3

Tap on Network, select your WiFi network, and enter your password. Once complete, tap the back arrow to return to your Settings.

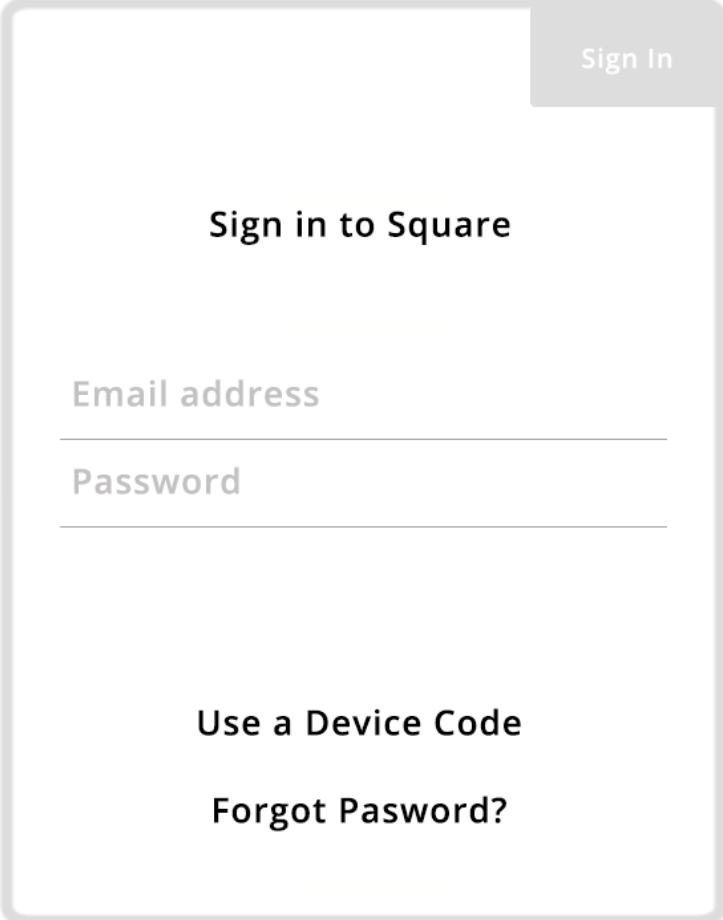

**4** Tap on General, then scroll to the bottom, and select About Terminal. If prompted, run a software update.

**5** If a software update was run, you'll be on the screen from Step 1. Tap the Sign in button, followed by Use a Device Code.

*If a software update was not required, tap the back arrow twice, followed by the X button to exit your settings. Then tap the Sign In button, followed by Use a Device Code.*

A screenshot of a mobile application's sign-in screen. The screen is white with a light gray border. In the top right corner, there is a gray button labeled "Sign In". Below this, the text "Sign in to Square" is centered. Underneath, there are two input fields: "Email address" and "Password", each with a horizontal line below it. At the bottom of the screen, there are two options: "Use a Device Code" and "Forgot Pasword?".

Enter the device code provided by ClinicSense, then tap on Sign In.

The screenshot shows a mobile application interface for signing in with a device code. At the top right, there is a grey button labeled "Sign In". The main heading is "Sign in with Device Code". Below this is a text input field labeled "Device code" with a horizontal line underneath it. At the bottom, there is a small text block explaining that device codes allow users to sign in to Square Point of Sale without sharing their account email and password.

7. You'll see a black screen that says "Ready to take a payment". That means you're all set to take payments with Square Terminal!

*Note: you can always swipe right on the screen to access a few other features of the Square Terminal.*
